Other considerations:

My workshops focus on developing sound photographic technique and composition. You are welcome to shoot digital, color print film, black and white film, and/or slides. The type of image capture is not as important as developing good photographic skills.

The hiking for all workshops is generally minimal and easy, but good sturdy shoes are recommended for all outdoor photography. As you probably know, weather can vary greatly during the course of the day. Be prepared and dress accordingly. Long pants are also recommended for macro photography as you will likely be getting down on the ground for some subjects. For workshops involving water, wading boots may come in handy but are not a must.
